

I am opposed to Sinclair Broadcasting using its public broadcasting capabilities to so blatantly propagandize for one party or another. The 'news' that they intend to present to American viewers is certainly not an accurate and balanced point of view. If this corporation wishes to produce infotainment designed to affect voters' behavior they should be held to the same rules as other political parties.

I feel as though my public tax dollars are working toward a specific candidate for the highest office in our land. This not right, and I suspect that under scrutiny it is not lawful. Please perform your duty and help to ensure Americans are not misled by corporations using American tax dollars to do it.

Thank you,

Chris Hamilton
